

# Terms and Conditions

## Software License Agreement

This agreement applies to those who have purchased a license to use SignCAD™, hereinafter referred to as Licensee. The Licensee agrees to the following terms and conditions:

### Definitions.

1.0 As used in this Agreement, the following definitions shall apply:

1.1 "Software" means the SignCAD software, including executable files, fonts, database files containing federal signage standards, documentation, and any Updates delivered to Licensee under this Agreement.

1.2 "Documentation" means the SignCAD User Manual and the SignCAD Help File.

1.3 "Updates" means the corrections and minor modifications to the Software, that Licensor may develop from time to time, which are delivered to Licensee hereunder.

1.4 "Licensed CPU" means a personal computer or workstation at a location of Licensee on which one copy of the Software will be installed and used by one person at a time.

1.5 "Network License" means licensed copy of the Software installed on a computer network where the maximum number of sessions allowed to run simultaneously is equal to the total number of network licenses authorized.

1.6 "Current Table ID" means the release date of the latest version of the database files incorporated the Software.

### 2. License.

2.1 License Grant. Subject to the terms and conditions of this Agreement, Licensor grants Licensee a non-exclusive, non-transferable limited license to install and use the Software and Documentation only on (i) one Licensed CPU if single user version or (ii) Network License where the maximum number of simultaneous users of the Software on the network is the same as the number of network licenses authorized. No installation, access or use of the Software is permitted on any computer except a (i) Licensed CPU or (ii) network server and network nodes, or (iii) as specifically stated in Exhibit A: Distribution of Font Resource Files, or (iv) by express written approval from the Licensor. Licensee may make one backup copy of the Software for each Licensed CPU, or for each Network License, provided that all proprietary rights notices embedded in or affixed to the Software are reproduced on each such copy.

2.2 Limitations. Except as expressly permitted in paragraph 2.1 above, Licensee may not, nor permit its employees or contractors to: (i) sell, rent, lease, loan, sublicense or otherwise transfer any copies of the Software to any third party or allow a third party to access or use the Software; (ii) modify, decompile, disassemble, reverse engineer or otherwise attempt to translate the Software into human-readable form; or (iii) copy the Software or parts of the Software, including the fonts or Documentation; or (iv) override or disable the software key, or (v) use information from the Software or parts of the Software in the development of other software.

2.3 Ownership. Title to and ownership of the Software, including any backup copies made by Licensee, is held by Licensor and is not transferred to Licensee. Licensor holds all patents, copyrights, trade secrets and other intellectual property rights in the Software, subject to the rights expressly granted to Licensee in this Agreement.

2.4 Licensor's right to use graphics. The Licensee agrees to allow the Licensor or SignCAD Systems, Inc. the right to freely use all symbols, special graphics, state and federal

route markers, or any other graphic necessary for signage in a given state, municipal, or county government.

3. Warranties.

3.1 Limited Performance Warranty. Licensor warrants to Licensee that the Software, as delivered to Licensee and when properly installed and used according to the Documentation, will operate in compliance with the Documentation for 90 days after delivery of the initial Software. Licensee's exclusive remedy for breach by Licensor of this limited warranty is correction of the Software through a free Update within a reasonable period of time.

3.2 Limited Media Warranty. Licensor warrants to Licensee that the media upon which each copy of the Software is provided to Licensee will be free from defects in material and workmanship under normal use for 90 days from delivery. Licensee's exclusive remedy for breach by Licensor of this limited warranty is replacement of any defective media returned to Licensor within the 90 day warranty period.

3.3 Limited Warranty of Content. Licensor warrants that the external tables and formulas representing federal and state highway standards, which are incorporated into each version of the Software, reflect and are based on the standards published by the Federal Department of Transportation as of the release date of the Software. Licensor does not represent or warrant that every federal, state or local highway standard is represented in the Software, nor that the signs produced through use of the Software will conform to federal, state or local highway standards or regulations. Licensee is responsible for verifying the accuracy and conformity of all signs produced using the Software with applicable federal, state and local highway standards or regulations. If Licensee notifies Licensor within 30 days after the delivery of a release of the Software or Update to Licensee that the Software contains any incorrect values or formulas, Licensee's exclusive remedy shall be correction of such values or formulas through an Update.

3.4 Disclaimer of Warranties. Except as expressly stated in this Agreement, the Software, Documentation and all Support Services are provided to Licensee "AS IS," without warranty of any kind, express or implied, including, but not limited to, warranties of performance or merchantability or fitness for a particular purpose. Licensee bears all risk relating to quality and performance of the Software. Licensor does not warrant that the Software will meet Licensee's requirements, operate without interruption or be error free. Licensee bears all risk relating to the accuracy or conformity of the signs created by or through the use of the Software to federal, state or local highway standards or other applicable regulations or specifications.

4. Limitation of Liability and Claims.

4.1 Limitation of Liability. Licensee's exclusive remedy and Licensor's entire liability hereunder, if any, for any claim(s) for damages, including any claim(s) for property damage or personal injury, relating to the Software, its use or signs created through its use, or Support Services and Options provided hereunder which are made against Licensor, whether based in contract, tort, negligence or any other theory of liability, for which Licensor is or may be legally liable, shall be limited to the amount of any fees paid by Licensee hereunder for the Software, Support Services and Options. In no event shall Licensor be liable to Licensee for any claim(s) relating in any way to (i) Licensee's inability or failure to design or create signs through use of the Software that are accurate or conform to the federal, state or local highway standards or other applicable regulations or specifications, (ii) Licensee's use of any release of the Software that does not contain a Current Table ID, or (iii) any consequential, exemplary, incidental, indirect, special or other type of damages relating in whole or in part to the rights granted or

services provided to Licensee hereunder or Licensee's use of, or inability to use, the Software even if Licensor has been advised of the possibility of such damages.

4.2 Limitation of Claims. No claim, regardless of form, which in any way arises out of this Agreement or the parties' performance of this Agreement may be made, nor action based upon such a claim brought, by either party more than one year after the basis for the claim becomes known to the party desiring to assert it.

5. U.S. Government Restricted Rights.

Restricted Rights Legend. Use duplication, or disclosure by the Government is subject to restrictions as set forth in subparagraph (c) (1) (ii) of the Rights in Technical Data and Computer Software clause at DFARS 252.227-7013 or subparagraphs (c) (1) and (2) of the Commercial Computer Software-Restricted Rights clause at 48 CFR 52.227-19, or clause 18-52.227-86(d) of the NASA Supplement to the FAR, as applicable.
